

Terraboost Poster and Coupon Box Installation Instructions

1 Remove old advertisement by taking one side of ad out and then the next.

2 If the advertising campaign calls for coupon boxes please remove old ones if necessary and insert new box now into cubby.

3 Remove the acrylic backing that is holding the current poster in place and discard old ad poster. (Best Technique: Gently rest the cover on the top of your head to keep it open while you work)

4 Place new ad poster onto acrylic rectangle and reinsert it into the display area making sure it lines up with brackets and magnets on unit and that the poster is straight. (Best Technique: Apply two pieces of scotch tape to the top and bottom of the ad and adhere onto acrylic piece to ensure it is straight) ***Please take a photo of the

completed swap and email photos to: photos@terraboost.com (Best Technique: Using a smart phone and emailing right then and there.)*

5 Coupon Box Insertion: 1st box should always go on right hand side, if shipped a 2nd box per dispenser the additional box will go on the left hand side. Find the black strip of Velcro on the provided coupon box and match it with the strip of Velcro on the inside shell of the machine, above the slot and press firmly. Feed the first coupon through the slot so that it is accessible from the outside of the machine. Pull first coupon out to ensure next one will feed through correctly.

Luxury Models: Simply drop into built in coupon housing on inside bottom left and right and feed first coupon through slot.
